LADIES SHOULD WEAR:

Women should wear a formal floor-length evening gown/ ravishing dress. Pair your dress with jewellery, heels, and an elegant clutch. Think elegance and sophistication with a touch of glamour... **in your region's colour.**

An evening gown, evening dress or gown is a long flowing dress usually worn at formal occasions. The drop ranges from ballerina (mid-calf to just above the ankles), tea (above the ankles), to full-length ... Evening gowns are usually made of luxurious fabrics such as chiffon, velvet, satin, organza, etc.

MEN SHOULD WEAR:

They asked us to “cut them some slack” 😊 not too formal for them if they are not a fan of black tie and jacket (as you know November has warm weather!) But if you are braving the African weather and prefer to dress in a suit, you are welcome.

Formal neat long trousers with a crisp white shirt, worn with -or without- a waistcoat and bow tie in your region's colour: anything goes, your choice!

Think French... Be creative!

Men will receive French style berets with something pinned on it to indicate their colour.
